Education

B.Tech in Computer Science and Engineering

Expected: May 2027

Manipal Institute of Technology

Udupi, India

- CGPA: 7.93
- Relevant Coursework:** Design and Analysis of Algorithms (DAA), Formal Languages and Automata Theory (FLAT), Compiler Design, Parallel Computer Architecture Programming, Operating System (OS), Computer Networks (CN), Software Engineering, Java Programming (OOP), C Programming, Verilog, Data Structures (DS), Database Systems (DBS)

High School Diploma

Graduated: March, 2023

Madhava Kripa English Nursery and Higher Primary School, Manipal- India

CBSE Curriculum

- 10th : 91.6%
- 12th : 92.4%
- Key Subjects:** Mathematics, Computer Science, Chemistry, Physics, and English

Projects

MOXY – Group Recurring Task Tracker (Ongoing for future improvements)

Github

- Collaborated with a team of 2 (worked on the backend) to build a real-time group task tracker where members share recurring tasks with streak tracking, completion history, and live sync across all members.
- Owned the backend architecture end-to-end using FastAPI, SQLAlchemy (async), and PostgreSQL, featuring JWT auth via Supabase, Redis-backed distributed locking, and a cron-driven task reset system replacing Celery Beat on free-tier hosting.
- Tools Used: Python, FastAPI, SQLAlchemy, PostgreSQL, Redis, Celery, Supabase, Docker.

Diabetes Detection using Machine Learning

Github

- Built a machine learning model to predict diabetes using the Pima Indians dataset
- Trained and evaluated multiple classifiers including Logistic Regression, Support Vector Machine, KNN and Naive Bayes.
- Visualized data distributions and model insights using Matplotlib and Seaborn.
- Tools Used: Python, Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn.

Skills

Languages: Python, Machine Learning, C++, C, HTML, CSS, ARM Assembly

Frameworks: Django, FastAPI, REST API

Tools and Platforms: Visual Studio Code, Git, Docker, Docker Compose, Redis, Supabase

Databases: SQLite, SQL

Soft Skills: Attention to detail, creative design, teamwork, effective communication

Certifications

Intro to Machine Learning

Feb 2026

Kaggle

Generative AI for Everyone

Jan 2024

DeepLearning.ai

Intro to Cloud Computing

Jan 2026

IBM

Python For Everybody

Jun 2025

University of Michigan

The Legend of Python

Jun 2025

Codedex

The Origins I:HTML

Jun 2025

Codedex

Extracurricular Activities

Senior Member of PRISM

AIML Domain + Projects Domain

Participated in GenAI Hackathon

ChatBot Chronicles – AI Chatbot Workshop

Appointed as School Sports Minister for the academic year 2022–2023

Awarded Best Sports Boy of the Year 2022–2023
